

When Seeds Grow

When seeds grow, though it's slow,
It'll all come good don't you know.
Treat them well. Time will tell, at the harvest.
Watch them grow, though it's slow,
'Til it's time to reap what you sow.
Treat them well. Time will tell, when they're grown.

Planting our seeds in the spring,
(Planting our seeds in spring,)
See what the summer will bring.
(See what the summer brings.)
Then in the autumn the crops fill our hands.
Winter's a rest for the land.

When seeds grow, though it's slow... *(etc. as above)*

Autumn's when we start at school.
(Autumn we start at school.)
Winter time we're learning too.
(Winter we're learning too.)
Spring's when we blossom with all that we know,
Summer time we're set to go!

When we grow, though it's slow,
It'll all come good don't you know.
Treat us well. Time will tell, at the harvest.
Watch us grow, though it's slow,
'Til it's time to reap what you sow.
Treat us well. Time will tell, when we're grown.
Treat us well. Time will tell, when we're grown.
